

# FEDERAL TAX DOLLARS USED AGAINST INDEPENDENT PHARMACIES

CVS Caremark uses federal tax money to pay itself and others more than independent pharmacies. Where do you want YOUR tax dollars spent?

October 2018

30 day supply of Quetiapine ER 300 mg  
(commonly prescribed for schizophrenia, bipolar disorder, and depression)

Source: Federal Employee Health Plan 25/75 plan. Pharmacy benefits manager: CVS Caremark. Prices reflect patient's cost-share for 30-day supply at time of survey. Total reimbursement to pharmacies is estimated 4 x patient's cost-share. Federal health plan is taxpayer funded.
